## Loopback-detection

- , , . Loopback-detection.

### Loopback-detection

:

```
SNR-S5210(config-if)#loopback-detection enable
```

errdisable .

```
SNR-S5210(config-if)#errdisable timeout enable
```

-, errdisable shutdown no shutdown

, -- 60:

```
SNR-S5210(config)#errdisable timeout interval <10-1000000>
```

BPDU, , - 3:

```
SNR-S5210(config)#loopback-detection interval-time <3-300>
```

## Storm-control

Storm-control - , . Rate-violation shutdown, SNMP Trap

### Storm-control

. kbps, pps:

```
SNR-S5210(config)#storm-control { broadcast | multicast | unicast } level <1-16777215> <pps/kbps>
```
